

# ***Hop-A-Thon***

***Fundraising for Muscular Dystrophy Disability awareness***

**Tuesday, March 30, 2010 @9:30 AM**

Everybody is different and special in a way. That means everybody can do something but nobody can do everything! Some children have difficulty in running, jumping, and walking because their muscles are weak and they do not get stronger. These children have a disease called MUSCULAR DYSTROPHY.

3D preschool is committed to help this volunteer organization to defeat more than 40 neuromuscular diseases through programs worldwide. We are going to organize a **Hop-A-Thon** in 3D on **Tuesday, March 30th, 2010 @ 9:30 AM**. Please mark your calendar and get ready to Hop with our children and cheer them up. We highly appreciate your support and taking 10 minutes from your busy schedule to attend this event.
